

JAKEMY

Precision screwdriver set with accessories

This product is a self-developed patented product.
Counterfeiters will be held legally responsible.

145 in 1 | CR-V bits | Exquisite and compact, easy to carry.

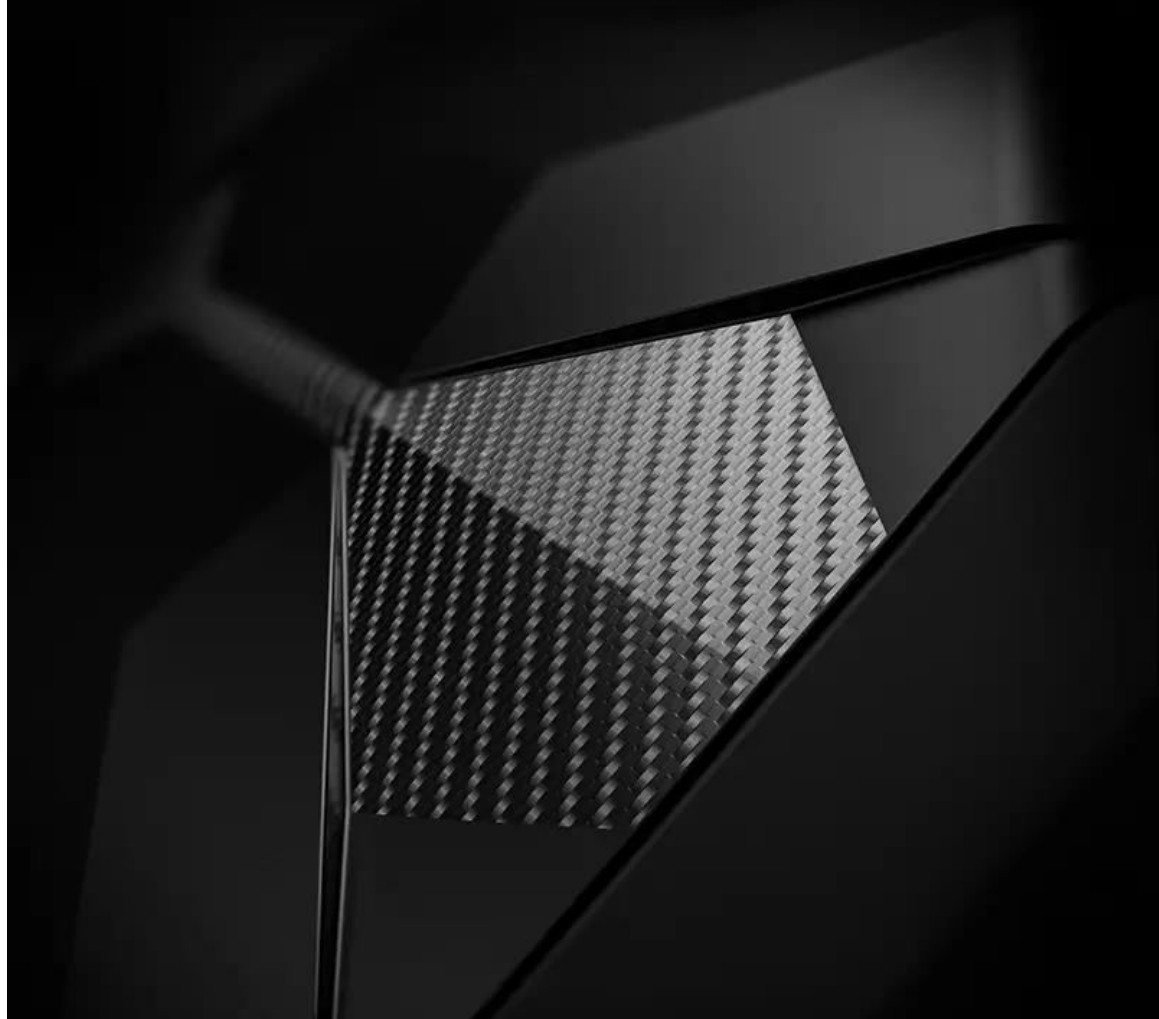

Appearance

Diamond cut texture of the case

Different from other ordinary styles in the market, diamond cut texture design can highlight the three-dimensional and high-quality texture of the material, taking into account the trend and pragmatism. It can better cater to the current people's aesthetics.

Internal layout

Accessories are neatly arranged in different areas

After many layout designs, we selected the most suitable layout for the 145 parts of this product and the interior color that best highlights the quality.

Printing process

Using advanced laser engraving technology

Different from the common ink printing engraving technology of other manufacturers, we use advanced laser engraving technology. Make the printing clear and not afraid of abrasion.

Extensible

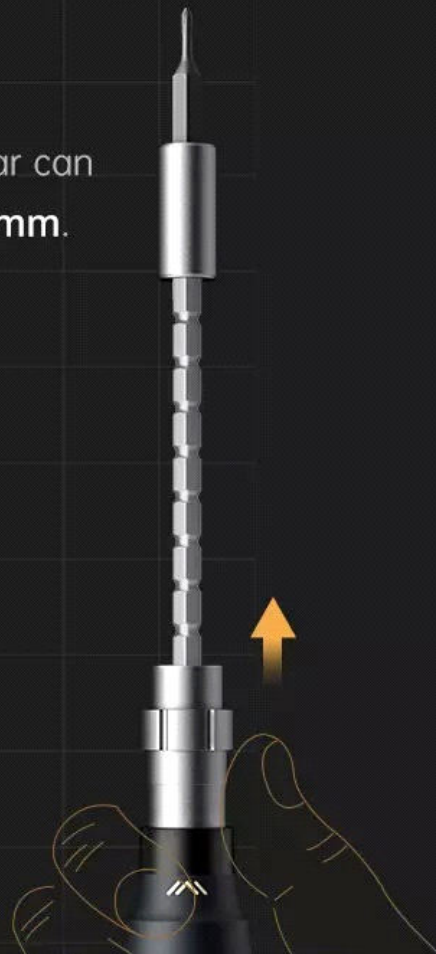

Built-in sectional adjustable extension bar in the handle

The extension bar can be used in narrow or special repair places. And it can be retracted and stored, saving more space.

Simply **push the switch on the handle forward** to stretch the extension bar.

The extension bar can extend up to **50mm**.

Bits head

4 kinds of 45mm deep hole screwdriver bits S-2 chromium molybdenum steel material

It can not only keep clear vision in normal operation, but also can be easily used in narrow spaces, deep holes and other difficult-to-operate positions.
