HUAYU® RM-L2010

Product Introduction

Thank you for choosing our remote control. The RM-L2010 is a newly developed universal remote designed for VESTEL LCD/LED TVs. After installing the batteries for the first time, please test the remote. If all functions work normally, you can use it directly without any setup. If the remote does not operate properly, follow the pairing procedure: press the POWER key together with the corresponding function key to match your TV.

Reset to factory settings

Press and hold the “POWER” button, press “0” then release both buttons.The indicator will flash twice to confirm the factory reset.
