- Press "Fast Cool" key to automatically set the machine as refrigerating mode, 21°C, middle wind, automatic blowing direction;
- Press "Fast Heat" key to automatically set the machine as heating mode, 27°C, middle wind, automatic blowing direction.
- Press "LED" key to OPEN LED LIGHT.
- Press "SET1" key or "SET2" to you can controlling two air-conditioning.

Battery installation:

1. Remove the battery cover of the remote control, install two new 7#batteries;

2. Install the battery cover. The time will appear in the left corner of LCD display.

Setting of remote control:

This remote controller has 3 setting modes that are marked as A, B, C and D. Please select one mode for operation.

A The brand corresponding point-to-point fast searching

1. Manually plug-in the air conditioner, aim the remote control at the receiving window of the air conditioner.

2. Press the code key that corresponds to your brand and hold until the air conditioner is started by giving out a sound signal. Release the key and the setting is completed.

Table of brand corresponding keys

ON/OFF	TEMP ▲	TEMP ▼	FAN
GREEN/Haier	MIDEACHANGHONG	CHIGO/ALUX	CHUNLAN/AUCMA
MODE	M SWING	A SWING	TIME ON
HISENSE/KELONG	HUABAO/OTHER	TCL/HUALING	SHARP/DAIKIN
TIME OFF	FAST COOL	FAST HEAT	CLOCK
TOSHIBA/SANYONEC	SAMSUNG/LG	Panasonic/HITACHI	FUJITSU/Electrolux

B Manually input code

1. Manually plug-in the air conditioner, find the type of the air conditioner in the "code table", and find the first code, for example: Haier

Brand	Code
Haier	020~037

2. Hold "SET1" button (for about 3 seconds) until the conditioner type code flickers in the window, press temperature "▲" or "▼" buttons until the desired code flickers in the window. When the code is right, the air conditioner will start.

3. Press "SET1" button and the selected conditioner type code will stop flickering.

4. Test whether the remote control button has been effectively set. If yes, setting completes. If no, repeat steps 2-3.

C Digital automatic search type

1. Manually plug-in the air conditioner, aim the remote control at the receiving window of the air conditioner.

2. Hold "SET1" button (for about 6 seconds) until the conditioner type code changes in the window, indicating you have entered the high-speed conditioner type search status. Release "SET1" button to stop searching until the air conditioner automatically start.

3. Test whether the functions of remote control buttons (excluding temperature and buttons, timed ON/OFF buttons, and "SET1" button) are correct. If yes, the code is effectively set. If no, repeat steps 2.

Set time function

Press clock button (for 3 seconds) to enter the clock setting status, and the clock will flicker. Use the temperature "▲" or "▼" buttons to adjust the current time, and press clock button again to exit setting.

Timing ON/OFF function

To configure the function of the original remote control, press "TIME ON" or "TIME OFF" buttons, and the air conditioner timer lights will go on, indicating the air conditioner has entered the timed status.

※ The timed on function of some of the air conditioner types is only valid only in the power off status.

Warm tips:

- This remote control is effective if the air conditioner receiver works normally.
- If this remote control is intended to be not in use for a long time, please remove the batteries.
- It may possibly caused internal program disorder if this remote control is not operated correctly, in case of that, please take out the battery, and install the batteries 30 minutes later, then the remote control may recover normal.
